for modern architecture

ASTOR

Aluminium Composite Panel

Bring your vision to life!

A Product of
ALDEKO

VIKANSHU GROUP
40 YEARS OF EXCELLENCE

ABOUT GROUP

With over **40 years** of experience in the construction industry, **Vikanshu Petrochem** has earned its reputation as a trusted leader, contributing significantly to infrastructure development across various regions.

Established in 2018, **Aldeko** proudly upholds this legacy by providing innovative solutions designed to meet the dynamic needs of modern construction. Rooted in the strong foundation set by **Vikanshu Petrochem**, **Aldeko** is committed to innovation and excellence. Specializing in the production of Aluminium and Metal Composite Panels (ACP), we create premium products that inspire modern aesthetics and open up exciting possibilities for architectural design.

At **Aldeko**, we place a strong emphasis on quality, sustainability, and exceptional customer care. Our materials are meticulously crafted to stand out and leave a lasting impression in any setting. We believe that outstanding projects require outstanding materials, which is why our advanced manufacturing facility in **Kotdwar, Uttarakhand**, ensures every product meets the highest quality standards.

With a comprehensive distribution network and a dedicated support team, we provide seamless delivery and reliable service throughout India. Our extensive range of colors and finishes offers the versatility to bring your unique vision to life.

Customer satisfaction is at the core of everything we do—your success is our success. Build better with **Aldeko**, and together, let's create something extraordinary.

To avoid possible reflection differences, recommended to instal the panel in the same direction as marked on the protective peel-off film. Color may vary from batch to batch, kindly ask for a sample. For installation, please follow the international standards.

What is ACP ?

Be Artistic or adventures and explore the contemporary buildings in practically any city in India, and you're bound to see many examples of a transformational architectural material, although you might not realize it. Aluminium Composite Panels (ACP) have reshaped the skyline, enabling architects to realise their visions which happened to be impractical or quite impossible less than 50 years ago.

SOME REALIZATIONS WITH ALDEKO
