 Reality with **WPC Louvers**

About company

Aldeko, which was established in 2018, was inspired by its parent company, Vikanshu Petroleum. With a strong emphasis on technological advancement. Aldeko, with a head office in Delhi and a manufacturing site in kotdwar, Uttarakhand, has a 25 lakh yearly production capacity and a 60k sq ft production area and offers imaginative architectural solutions. Now available across pan India, with 200+ dealers in 5years.

With a rich legacy spanning 38 years in the bitumen petroleum products and construction industry, Vikanshu Group has established itself as a leader in the field. Now, Aldeko Panels proudly unveils its state-of-the-art manufacturing facility for aluminum and metal composite materials.

About aldeko exterior cladding

Experience the exceptional combination of beauty, durability, and sustainability with Aldeko's WPC exterior cladding. Elevate your building's exterior with our innovative solutions and enjoy a stunning façade that stands the test of time. Contact us today to explore our range of WPC cladding options and transform your architectural vision into reality.

Our WPC exterior cladding is a versatile and eco-friendly choice that enhances the visual appeal of your building while providing exceptional protection against weather elements. Crafted using a unique blend of wood fibers and high-quality polymers, it offers the timeless charm of wood without the drawbacks of traditional timber cladding.

HIGH PERFORMANCE

Choose our high-performance cladding to elevate your architectural designs, ensuring superior performance, durability, and aesthetics. Experience the difference and unlock the full potential of your projects with our cutting-edge solutions.

COST EFFECTIVE

We understand the importance of finding efficient and budget-friendly options for architectural projects, which is why we have developed a range of cladding materials that deliver exceptional performance at a reasonable price point.

INNOVATIVE

Introducing our innovative cladding solutions, designed to transform the aesthetics and functionality of any space. Our cutting-edge approach combines advanced materials and state-of-the-art technology to deliver unparalleled performance and visual appeal.

ECO FRIENDLY

our eco-friendly cladding solutions, are designed to harmonize aesthetic appeal with environmental responsibility. We understand the need to prioritize sustainability without compromising on performance, which is why our cladding products are meticulously crafted using eco-conscious materials and manufacturing processes.

BUILT TO LAST

Crafted with the finest quality materials, our cladding products offer exceptional resistance to harsh weather conditions, UV radiation, and environmental pollutants. They are built to maintain their structural integrity and aesthetic appeal, ensuring that your building's façade remains stunning for years to come.

PEACE OF MIND

Invest in our cladding system and experience the tranquility that comes from knowing your building is safeguarded with the utmost care. Trust us for a cladding solution that combines peace of mind, durability, and stunning aesthetics.

CORNER PROFILES

With a wide range of designs and finishes available, our corner profiles can complement various architectural styles, from modern and sleek to traditional and timeless. They not only serve a functional purpose by protecting the edges and corners of cladding panels but also add an element of sophistication to the overall design.
