**BRING YOUR VISION TO
LIFE**

A Little History

ACP was introduced in 1969. From then on, adoption grew exponentially as architects, fabricators and building owners discovered the functional advantages and beautiful possibilities of this remarkable new material. Came 2017, ALDEKO Panels with production and material facility at kotdwar, Uttarakhand, began production, setting a standard for innovation and quality that would continue to advance today with the introduction of new products and finishes.

ALH 332

Corton Steel

NEW ARRIVALS

Smoky Grey patterns evoke a texture that particularly blends with the rawness of an iron. Aldeko's wabi-sabi Industrial Iron panel goes with the interior that allows aesthetics and authenticity.

NEW ARRIVALS

Corton Steel Textured panels or we can say, weathering steel panels are differently textured from regular ones, as they are made up of alloys that create self-protecting rust when exposed to the weather. Aldeko's Corton Steel Wabi Sabi pattern panel can be primarily used for landscaping and outdoor construction.

STONE

SERIES

NEW ARRIVALS
